

THE 40 MONTH PROJECT

MEK'S ROAD MAP TO HIGH SCHOOL

The time between September of the 5th grade to December of 8th grade, when high school applications are due, spans 40 months. With the proper strategy and planning, these 40 months can map out a successful journey to high school success. At MEK, we map out these 40 months with you--our **40 Month Project**.

The optimal 40 months to high school contain the following:

- 1. School grades
- 2. Standardized test prep
- 3. Extracurricular activities
- 4. Setting high school goals

These courses will set you along the right path to achieving what you need to achieve, when you need to achieve it. Follow the map below to plan your 40 month journey to high school admissions success!

		IN SCHOOL	EXTRACURRICULAR	TO DO LIST
5 TH GRADE	SEPTEMBER			
	OCTOBER			
	NOVEMBER			
	DECEMBER			
	JANUARY
